

5.2 NX stationary Coolant- and Oilmist Filters. To be placed at the End of a Central Ducting System or directly at a Machine.

P-259	NX-1000 Filter for Coolant- and Oilmist. Incl. filter box of powder coated steel sheet, oil return pipe with 1 inch outside thread, inlet from the right or left with d.200mm inlet flange and cover plate for the not used inlets, 3-phase 0.75 kW built in fan, circuitbreaker with motor overload protection and 10m ² filter cassette (washable). Measure 1800mm (with HEPA filter 2100mm)/600mm/750mm. Weight 110 kg.		 <p>NX · 1000 · 2000 · 4000</p>
P-260	NX-2000 Filter for Coolant- and Oilmist. Incl. filter box of powder coated steel sheet, oil return pipe with 1 inch outside thread, inlet from the right or left with d.200mm inlet flange and cover plate for the not used inlets, 3-phase 2,2 kW built in fan, circuitbreaker with motor overload protection and 12m ² + 10m ² filtercassettes (washable). Measure 1800mm (with HEPA filter 2100mm)/600mm/750mm. Weight 130 kg.		
P-261	NX-4000 Filter for Coolant- and Oilmist. Incl. filter box of powder coated steel sheet, oil return pipe with 1 inch outside thread, inlet from the right or left with d.315mm inlet flange and cover plate for the not used inlets, 3-phase 4 kW built in fan, circuitbreaker with motor overload protection and 20m ² + 16m ² filter cassettes (washable). Measure 1800mm (with HEPA filter 2100mm)/800mm/900mm. Weight 160 kg.		
P-493	HEPA Filter Fastener for NX-1000/2000/4000. Incl. 2 pcs of 350m long fasteners which are to be "hooked" around the top of the HEPA filter and fastened with exenter locks which as standard are part of the filter box.		
P-264	HEPA Filter 22m² (99.99%) for NX-1000/2000. Measure 595mm/595mm/300mm. Is to be placed on top of the filter box (HEPA filter fasteners are ordered separately).		
P-266	HEPA Filter 44m² (99.99%) for NX-4000. Measure 750mm/750mm/300mm. Is to be placed on top of the filter box (HEPA filter fasteners are ordered separately).		
P-488	Pressure Gauge (Manometer) 1 Piece for NX-1000 without HEPA Filter (has to be ordered together with NX-Filter).		
P-392	Pressure Gauge (Manometer) 2 Pieces for NX-1000 with HEPA Filter or NX-2000/4000 without HEPA Filter (has to be ordered together with NX-Filter).		
P-393	Pressure Gauge (Manometer) 3 Pieces for NX-2000/4000 with HEPA Filter (has to be ordered together with NX-Filter).
